

## Touch the World

See the world through the eyes of our mentor  
And heal the world with the heart of our mentor  
Touch the world with love and compassion  
Live our lives with our mentor's vision

Know the world with our mentor's wisdom  
Move ahead with our mentor's passion  
Show the world to be united  
Heart to heart our spirits ignited

Understand the pains of man  
And help to change our destiny  
Shouldering the cause of peace  
Removing human misery  
Heal the world, let's show the world  
To love the world and know the world (2 times)

Change the world with the will of our mentor  
And guide the world with the mind of our mentor  
Get the world closer together  
Hand in hand using soft power

Understand the pains of man  
And help to change our destiny  
Shouldering the cause of peace  
Removing human misery  
Heal the world, let's show the world  
To love the world and know the world (2 times)

Hear the world through the ears of our mentor  
And tell the world with the voice of our mentor  
Get the world closer together  
Hand in hand using soft power

Understand the pains of man  
And help to change our destiny  
Shouldering the cause of peace  
Removing human misery  
Heal the world, let's show the world  
To love the world and know the world (4 times)

Touch the world with love and compassion  
Live our lives with our mentor's vision
