

United

Listen to what the Daishonin had to say
His words still hold their relevance even today
With the Goshō that keeps showing us the way

Adding meaning to our life everyday

Listen to what Sensei has to say
His guidance never fails to motivate
A living proof of the power of this faith
A guiding light that never lets us fail

So united, united, united we will stand
Bharat Soka Gakkai together hand in hand
United, united, united we will fight
As one for kosen-rufu every moment of our lives

Come on Bodhisattvas of the earth
Let's learn and let our Buddhahood emerge
Bring happiness to every life we touch
Never ever giving up on the search
(repeat once)

So united, united, united we will stand
Bharat Soka Gakkai together hand in hand
United, united, united we will fight
As one for kosen-rufu every moment of our lives
(repeat once)

For wisdom leads to courage
From courage comes compassion
Compassion leads to understanding every situation
There's no need to look back
There's no need to feel sad
What's done has been done
"Right now" is what we have

So united, united, united we will stand
Bharat Soka Gakkai together hand in hand
United, united, united we will fight
As one for kosen-rufu every moment of our lives
(repeat once)
